Anasztázia Karalyos-Kecskés

Web Application Developer

kecskes.anasztazia@gmail.com · +44 7564 040783 · github.com/Anasztazia12 · amethyst-nexalune.co.uk

Profile

Junior web application developer working with Python, Django and JavaScript, from database models to tested, deployed apps. Studying for a Level 5 Diploma in Web Application Development (expected 2027) and working as a freelance developer since August 2026. Nine years as a pharmacy assistant and several years in education and care gave me a careful, detail-focused way of working and a strong sense for the people who use the software.

Skills

Backend	Python, Django, Node.js, REST APIs, C# (learning)
Frontend	JavaScript (ES6+), HTML, CSS, Bootstrap, Chart.js, Leaflet, Babylon.js
Data	PostgreSQL, SQLite, MySQL, Firebase (Auth, Firestore, Cloud Functions), Supabase
Testing	Django TestCase, Jest, Playwright, manual testing
Tools	Git, GitHub, Heroku, Render, Vercel, Make, Agile / Kanban
Languages	English (B2), Hungarian (native)

Projects

Client Portal: Python, Django, SQLite, Render

live demo

- Document collection portal with two user roles: clients upload files, staff approve or reject them in a custom console.
- Three related models with versioned uploads; custom management commands for reminder emails and demo data.

WorkCafe: Python, Django, PostgreSQL, Leaflet, Heroku

live demo

- Café finder with search, map, accounts, favourites and full CRUD with ownership checks.
- 8 automated tests with Django TestCase; OpenWeatherMap API; user stories on a GitHub Project board.

Pergola Calculator (client project): JavaScript, Babylon.js, Firebase

live site

- 3D configurator that calculates materials and price as the customer changes the design.
- Price formulas kept server-side in Cloud Functions with origin checks, rate limiting and signed responses; moved the backend from PHP to Firebase.

Budgeting App: JavaScript, Firebase, Chart.js, Jest

live demo

- Budgeting with debt tracking and what-if forecasts; per-user data in Firestore; 24 Jest unit tests.

Northline Gas & Heating: website and Make automation

live site

- Quote form connected to a Make scenario: AI sorts each request by job type and urgency, saves it to Google Sheets and alerts the engineer about emergencies; a keyword filter and error handling make sure nothing urgent is missed.

Experience

Freelance Web Developer, Amethyst Nexalune

Aug 2026 – present

- Build websites, web apps and small business systems for clients in the UK and Hungary, from first meeting to deployment.
- Built a Django client portal, a staff training system, quote and rental trackers, and a 3D calculator for a construction company.
- Deliver bilingual (English/Hungarian) sites; automate client workflows with Make.

Teaching Assistant, Kompanik Zsofia Ovoda (Nursery) Jan 2020 – Feb 2022

Prepared learning materials and supported children individually and in small groups, following safeguarding policies.

Administrator / Document Preparer, Bottomline Oct 2017 – Aug 2018

Sorted, filed and digitised client records accurately.

Personal Assistant, Independent Living Alternatives Jun 2014 – Oct 2016

Personal and practical support for clients with a range of disabilities.

Stock Audit Assistant / Warehouse Operative, Findel Education Ltd Sep 2012 – May 2014

Stock checks, quality control and daily reporting with the audit team.

Pharmacy Assistant, Pharmacy of Saint Mate, Budapest Sep 2003 – Aug 2012

Prepared prescriptions, checked dosages, entered patient data and compounded medicines.
